SECTION 2.2 a. CONDITIONAL USE REVIEW CRITERIA	
When reviewing a conditional use, consideration shall be given to factors associated with the use including, but not limited to, the following:	
1. Site design	4. Vehicular trips generated by the use
2. Property access	5. Impact of the use on surrounding properties
3. Hours of operation of the business	6. Impact of the use on the natural features of the site

SECTION 2.3 - SUPPLEMENTARY REGULATIONS

2.3.1 General exemptions.

- A. *Heights—Exclusions.* The following structures are exempt from the height limitations imposed within each zoning district:
1. Church spires, cupolas, and chimneys.
 2. Agricultural accessory structures, such as barns, silos, windmills, and the like.
 3. Parapets and structures used for ornamental or aesthetic purposes not to exceed twelve (12) feet.
 4. Elevator penthouses not to exceed fifteen (15) feet.
 5. Mechanical equipment on building roofs or rooftop antennas provided any such equipment exceeding 12 feet in height shall be contained within a structure or otherwise screened from ground view from adjoining streets and properties.

- B. *Front Yard Requirements—Existing Residential Areas.* The setback requirements of this Ordinance shall not apply to any residential lot where the average setback on developed lots located adjacent to and on each side of such lot and within the same zoning district and fronting on the same street as such lot is less than the minimum required setback. In such cases, the setback of such a lot may be less than the required setback but not less than the average of the existing setbacks on the developed lots. In no case, however, shall setbacks be less than 15 feet.

If the adjacent developed lots on both sides of a vacant residential lot, within the same zoning district and fronting on the same street as such lot, have front yard setbacks greater than the minimum required by the zoning district, then the minimum setback on the vacant lot shall be the average of the 2 adjacent developed lots.

C. *Double Frontage Lots.*

1. Double frontage lots should be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A landscaped or natural buffer of at least twenty feet (20'), across which shall be the right of access, shall be provided along the line of lots abutting such a traffic artery.
2. On lots having frontage on two (2) streets, but not located on a corner, the minimum front yard setback requirement shall be provided along each street frontage.

D. *Setbacks—Exclusions.*

1. No building or structure or projection thereof, including porch, deck, terrace or chimney, shall be erected closer to a property line than the applicable setback regulation prescribed herein allows. However, uncovered steps, patio slabs, driveways, walkways and roof overhangs of up to 18" may be located within setback areas.
2. Required setbacks may accommodate runoff reduction measures, provided such setbacks meet fire code standards. The runoff reduction measures may not compromise public safety such as the sight distance triangles required by the City. Above-ground cisterns, greenwalls, or other vertical runoff reduction measures shall require approval by the Community Development Director.

E. *Flag Lots.*

1. Flag lots are prohibited for residential development. Residential building sites must meet minimum lot width requirements at the front setback line or at twice the required front setback for cul-de-sac lots.

2.3.2 Temporary uses.

The Director may authorize a temporary use, as follows:

- A. Carnival, circus or fair, for a period not to exceed 4 days. A period not to exceed 30 days may be granted by the Director if the event is held within a designated amphitheater facility as defined by Code and confirmed by the Director. Site shall meet adequate parking and safety concerns and limit impacts to surrounding properties.

The director or the Mayor and Council may impose conditions to the issuance of the permit to minimize the disturbance to the residential neighborhood. These conditions may include neighborhood notification requirements, parking and traffic control, and limitations on the hours of operation. In no event shall filming activities commence prior to 7:00 a.m. or continue after 10:00 p.m.
- I. All temporary certificates of zoning compliance may be renewed provided that it is determined that said use is clearly of a temporary nature, will cause no increased traffic congestion and will not create a nuisance to surrounding uses.
- J. The director may require City Council review and approval of any temporary uses.
- K. Fireworks sales in a tent or other temporary structure in the L-1 District, for a period not to exceed ninety (90) days.
